GARAGE DESIGN STUDIO ◆ BROCHURE 2026

AUTODROME

Classic

Bespoke garage design for classic car and motorcycle enthusiasts.

ABOUT US

The studio

AUTODROME is a studio dedicated to designing bespoke garages for car and motorcycle enthusiasts and collectors.

The garage stops being just a place to park and becomes a space to live in: it showcases your cars, tells your story and matches the style of your home.

From layout to materials, from lighting to furniture, every element is designed to be unique, practical and unmistakably yours.

> *We don't just design garages.*
> *We give shape to a passion for engines.*

THE FOUNDER

Your passion, our vision

I'm Christian Giani, a designer with a technical and architectural background, specialising in collector garages and private workshops: the garage of people for whom cars and motorcycles are part of who they are.

I have designed bespoke garages and lounges for enthusiasts: from a studio-garage for a Porsche 911 GT3 to a bar corner for a Ferrari SF90, from a Mercedes 300 SL to Ducati and MV Agusta motorcycles.

Every project starts from your space and your cars, and carries through to completion.

Christian Giani

FOUNDER OF AUTODROME

> *Every garage begins with your passion.*

EMOTION

You have built your collection.

Now create the space it deserves.

You have spent years finding the cars and motorcycles you wanted. But does the space you keep them in really reflect your passion?

AUTODROME designs garages for people who see a car not just as a means of transport, but as part of their own story.

LIVING THE GARAGE

Passion becomes architecture

Every car and every motorcycle tells a story. We design spaces to enjoy it even with the engine off.

A place to relax

Comfortable seating to spend time with friends beside your cars.

Races and films

Projector and screen for sporting events, races and films.

The right atmosphere

Adjustable lighting and temperature for every occasion.

Every detail matters

Floors
Resin or asphalt effect: durable, good-looking and easy to clean.

Walls
Wood, metal or graphics that catch the light and make the cars stand out.

Furniture
Quality materials such as leather and carbon fibre, pleasant to the touch.

Made to measure
Every element reflects the owner's taste.

> *Anyone can buy a resin floor, lights and furniture. What makes the difference is the design that brings them together.*

OUR SERVICES

Three ways to the garage of your dreams

Choose the path that suits you best.

1

Garage Map®

We design it and we build it.

From the first meeting to the finished garage: we design the space and coordinate the works, step by step.

See how on page 8

2

Garage Makers

We design it, you build it.

We help you decide on layout, materials, lighting and furniture before you spend. You manage the works, at your own pace and with your own craftsmen.

Packages and prices on page 9

3

NEW

Sprint Race

Already have a garage? We style it.

Lighting, furniture, artwork and collectibles chosen around your car or motorcycle.

SERVICE 1 · FULL DESIGN AND BUILD

Garage Map®

Our method in three stages

1 ***First meeting*** PIT STOP VISION™

We listen to your needs and look at the space together. The result is a first idea of the project.

2 ***Preliminary design*** WARM UP SESSION

Layout, materials, 3D images and cost estimate: you weigh the investment before deciding.

3 ***Build*** FULL BUILD RACE

We develop the final design and coordinate the works through to the finished garage.

Each stage has its own agreement: after each one, you decide whether to continue.

Garage Makers *Your garage, built with your own hands.*

We help you decide how to organise your garage, which materials, lighting and furniture to choose and in what order to proceed. You manage the works, at your own pace and with the craftsmen you choose.

	Starter €500	Heritage €999	DIY Premium €1,490
Ideal for	Enhancing one wall or corner of your garage.	A coordinated style for a garage up to 30 m².	A detailed design for a garage up to 50 m².

Turnaround starts once we receive complete photos, measurements and brief. Prices cover consultancy and design only: objects, furniture, materials, shipping and installation are not included.

SERVICE 3 · STYLING · NEW

Sprint Race

"You already have your garage.
Now make it speak for you."

We start from your car, your motorcycle or your collection. Every piece has a role: the light that brings out the bodywork, the platform that showcases the vehicle, the photograph or memorabilia that tells its story.

OPTION ONE

I'm looking for a special piece

We help you find the right piece for your space: an illuminated platform, a sign, a workbench, a print or a collector's item.

OPTION TWO

I want to restyle my garage

We gather photos, measurements, tastes and budget. We propose a visual direction, select furniture, lighting and objects and plan where they go. You can do it all at once or step by step.

What we can source for you

01

Automotive art

Photographs, prints, technical drawings and commissioned works.

02

Lighting and signs

Neon, illuminated signs, accent lights and handcrafted lamps.

03

Furniture and lounge

Armchairs, sofas, workshop benches and bespoke pieces.

04

Platforms and display

Illuminated platforms, stands and display systems for cars, bikes and collections.

05

Heritage and memorabilia

Period objects, motorsport replicas and collector's pieces.

06

Custom details

Plates, silhouettes, signage and made-to-measure accessories.

SPRINT RACE · STYLING CONCEPT

A *garage for motorcycles*

The space

The motorcycles take centre stage, between the maintenance bench and the corner with leather sofas.

The common thread

Warm light on brick, vintage photographs, the portrait of Steve McQueen and collector's pieces link the two areas.

The result

Every element speaks of a passion for motorcycles: the garage becomes a portrait of its owner.

Concept image for illustration.

OUR PROJECTS · 1

Rally Workshop

LANCIA STRATOS HF · ALITALIA

The project

A period workshop that tells the legends of the Monte Carlo Rally.

The choices

White walls with an Italian tricolour band and Alitalia graphics, a metal tool bench, original posters and trophies.

The result

A lived-in garage, where the Stratos looks as if it has just come back from a special stage.

OUR PROJECTS · 2

The Panelled Garage

FERRARI 288 GTO

The project

A warm retreat where the 288 GTO is kept like a work of art.

The choices

Wood-panelled walls and ceiling, plank flooring, leather Chesterfield sofas and memorabilia in display cases.

The result

The atmosphere of a gentlemen's club for a legendary Ferrari.

> *"Every car tells a story. We give it the home it deserves."*

OUR PROJECTS · 3

Gentleman's Workshop

CLASSIC PORSCHE 911

The project

A bespoke workshop to look after a classic 911.

The choices

Lacquered British-green cabinets, an oak worktop, clocks, spare parts and tools on display as in a craftsman's shop.

The result

A working space where every tool has its place.

OUR PROJECTS · 4

The British Box

JAGUAR MK2

The project

A compact garage turned into a small gallery for a British saloon.

The choices

Light wood and burnished metal shelving, scale models, helmets and wheels on display, polished grey floor.

The result

A few square metres, all the charm of British style.

> *"Even a small garage can tell a great passion."*

OUR PROJECTS · 5

Riviera Garage

MERCEDES-BENZ 300 SL ROADSTER

The project

A garage overlooking the sea, in the spirit of the French Riviera.

The choices

Floor-to-ceiling windows facing the sunset, polished resin floor, a stone counter and an illuminated bottle display.

The result

A lounge for evening drinks, where the car becomes part of the view.

OUR PROJECTS · 6

Gallery Garage

FORD GT40

The project

A private gallery for a Le Mans icon.

The choices

A bookcase wall with framed vintage photographs, indirect lighting, glazing onto the garden, pearl-grey resin floor.

The result

A garage you visit like an exhibition.

OUR PROJECTS · 7

Vintage Garage

PORSCHE 356

The project

A garage for two 356s with the charm of 1950s workshops.

The choices

Chequered floor, wooden cabinets, period signs and posters, a skylight for natural light.

The result

A collection that looks straight out of a historic archive.

AUTODROME

"Every dream starts with a first step. We make it real."

Tell us about your garage

Send us a few photos and rough measurements, and tell us which car or motorcycle you want at the centre. We'll help you work out where to start.

1 · Photos

Of your garage as it is today, even from your phone.

2 · The star

The car, motorcycle or collection to showcase.

3 · Budget

Just a rough idea, so we can suggest the right choices.
